EASTERN STATES TO OCT. 26.

EASTERN STATES.

"Boss" Tweed Arrested.

NEW YORK, Oct. 27.—Tweed is arrested and held to bail in the sum of one million dollars. J. Gould and Commodore Garrison are his bondsmen.

NEW YORK, Oct. 26.—The *Times* states that Tweed has been busy the past few days in hiding away personal and real estate, and the stocks which he had heavily all been sold or transferred. All his houses and lots in the city have been made over in his relatives. Over four million dollars worth of real estate has been transferred within the past few days. Yesterday he made over to Richard M. Tweed, his son, real estate to the value of $1,000,000, including his Fifth avenue residence. Complaint has been made against Tweed and others before Judge Barnard which demand judgment for the people in the sum of $8,000,000, and bail in the sum of $1,000,000 each is also demanded. Ingersoll, Garvey and Woodward have fled, leaving Tweed alone to answer the complaint. There was considerable excitement in political circles last night relative to Tweed's arrest. No trouble is apprehended.

How "Democracy" Does It.

Tweed was busy all the evening consulting with his lawyers.

The Committee of Citizens appointed by the Board of Supervisors, which has been engaged many weeks in examining the frauds in the city accounts, to-day submitted a report of its labors, with a summary of facts and figures. This report is the first authentic information on the subject yet furnished. The amount charged as the cost of the new unfinished Court House, County Court offices, repairs and furniture, is $13,000,000. The whole cost of the completed building could not fairly exceed three millions. Of the immense sum charged, eight millions is indirectly charged to the Court House and furniture, $5,282,000 is charged to County Court offices with repairs and furniture, including $641,000 paid for $17,676 worth of carpets; $297,000 paid for $32,000 worth of furniture; $84,000 paid for $7,300 worth of plumbing; $103,000 paid for $70,000 worth of plastering. The sum of seven million dollars is charged for advertising, printing and stationery since the 1st of January, 1869; the whole is really worth $475,000. These figures show a loss to the city of $650,000,000. This is the amount stolen and divided among the Ring thieves since January, 1860. The report concludes the work of the Committee. The Committee assert that in two years and eight months half of the entire revenue of the city and county has been obstructed.

Arrest of Counterfeiters.

NEW YORK, Oct. 27.—Col. Whitney, Chief of the United States Detective force, yesterday effected the most important arrest of counterfeiters ever made in this country. These notorious counterfeiters, one of whom is Ballard, are the only men in this country who possess the stock to manufacture Government fibre paper material. The capture includes a one hundred thousand dollar transfer press, believed to be the only one outside of the Treasury Department, full sets of steel and copper plates for $1,000, $20, $10 and $2 bills, also full sets of plates of fractional currency stamps for the Treasury seal, *fac simile* of types for raising notes, etc.

Arrests at Chicago.

CHICAGO, October 28.—The State Auditor has applied in the Circuit Court for the dissolution of four more insurance companies in this city—the North Knickerbocker, Equitable, Garden City and Commercial.

The *Tribune* to-day says 600 to 700 brick and stone masons can get work through the winter at $4 and $5 per day. Two thousand carpenters can get work through the winter at large wages, and workmen of all kinds are needed.

The coalition ticket for the city and county officers was completed yesterday. It is unanimously admitted to be the best ticket presented to voters. It is almost exclusively composed of leading citizens, with scarcely a single politician.

Death of a Hero of Fort Sumter.

CINCINNATI, October 27.—Private dispatches, received to-day say that General Robert Anderson died at Nice, France, last evening. He had gone there three weeks ago, hoping to receive benefit from the change. His family was with him. The remains will be brought by the U. S. vessel *Guerriere* to this country for interment. It is known here that recent reports of his alleged poverty are without foundation. He received full pay as a Brigadier General and had a handsome income besides.

Murderers Executed.

JACKSONVILLE, Fla., October 27.—William C. Scott was executed to-day for the murder of Rosa Carleton and two children in February last.

INDIANAPOLIS, October 27.—Jerome Brooks, the murderer of Stants at Logansport, in April, was hanged to-day. He manifested to the last the same stolid indifference that he has maintained since his arrest, and placed the rope around his neck himself.

Political Exactitude in Texas.

GALVESTON, October 27.—Returns from different counties and districts give Goddin (Democrat) 4,441 majority. The count at Austin, by changing votes of other counties, and throwing out Limestone and Freestone counties, which had a majority of 1,630, gave Clark (Republican) a majority of 947. A certificate of election was given to him. Conner will be the only Democrat who will get a certificate of election. Degener (Republican) refuses to accept a certificate, on the ground that Hancock (Democrat) received a majority of the votes.

WASHINGTON CITY.

The Geneva Tribunal—Indian Affairs.

WASHINGTON, October 27.—The President has appointed William M. Evarts and Mr. Curtis as counsel before the tribunal of arbitration at Geneva, in addition to Caleb Cushing. Meredith declined the appointment tendered; Evarts accepted. Curtis is now on his way home from Europe.

J. M. Cavanagh has arrived. He comes on business connected with Indian affairs. Vincent Colliver, who has returned here, represents the Apaches of Arizona and New Mexico as in a starving condition. Eargor Perce, Chief of the Apaches and Mohaves, has been reduced by starvation so that he could not speak for several hours. They complain against the whites for taking possession of their country, and say that whenever they went to Government posts they were hunted by scouts and shot at Camada. The Aclamoza Indians were invited and came in, manifesting a friendly disposition. He says it is untrue that depredations were committed at Camp Grant, or that he interfered with the movements of General Crook. Cachecas and twenty warriors came on the reservation at Canada. Lameza and and other Apache chiefs will visit Washington during the winter.

BY ATLANTIC CABLE.

Reorganization of the Russian Army.

ST. PETERSBURG, Oct. 28.—A general order of the War Office directs the entire reorganization of the Imperial army and calls to arms the whole adult population of the country. The order places the numerical strength of the forces of the Empire at a total of 1,600,000, when required for war purposes. Sixty six regiments of Cossacks are not included in the order. It creates also a further military force of reserves, to be employed in case of invasion. The order is equivalent to the mobilization of the population of the entire nation, and makes every man capable of bearing arms a soldier on a peace footing. The reinforcements ordered to the artillery will add a strength of one thousand guns to the batteries already in service.

Prince Napoleon has resigned his seat in the General Council of Corsica and gone to Italy.

From San Francisco.

SAN FRANCISCO, Oct. 28.—The stockholders of all the San Francisco Insurance Companies, except the People's—which will be wound up by the Commissioner—are assenting to the heavy assessments, and the companies will pay all demands and continue business. The Firemen's Fund has levied an assessment of fifty per cent., and the Occidental will do the same on Monday.

The State Investment Insurance Company was incorporated to-day, with a capital stock of five hundred thousand dollars, half of which is already subscribed.

Among the arrivals from the East yesterday were several men from Chicago, who were passed free over the road by General Sheridan. They were wholly destitute and mostly without trades. Twenty of them slept in the calaboose last night for want of other quarters.

INTERIOR CALIFORNIA DISPATCHES.

The Los Angeles Riot.

LOS ANGELES, Oct. 27.—Eight arrests were made to day of men charged with taking part in the riot Tuesday night—one for stealing a diamond ring from the body of a Chinaman who was hung. The ring was found at a jewelry store. A German was also arrested for breaking open a trunk and stealing the contents. The Coroner's jury has just adjourned till Monday.

The city police are implicated for neglect of duty. At a meeting of the Common Council last night, Osborne stated that he was informed that some of the police conducted themselves disgracefully at the riot, offering to bribe men to induce them to join the mob. A special committee was appointed to investigate the matter. A proposal to raise a military company to guard the city against the recurrence of like scenes, was warmly advocated.

Homicide at Pacheco.

PACHECO, Oct. 26.—Patrick Sullivan, of Bay Point, was shot and killed to-day by his sister-in-law, the wife of James Sullivan. Jas. Sullivan, his wife and deceased were at dinner when some words passed between Mrs. Sullivan and deceased, when she rose, took a shotgun and blew his head off.

UTAH.

SALT LAKE, Oct. 28.—Daniel Wells, Mayor of the city, Hosea Stout, formerly Attorney General of the Territory, and William Kimball were arrested by the U. S. Marshal and taken to Camp Douglas, charged with murder in killing Richard Yates and a man named Buck several years ago. An indictment was found by the Grand Jury. Application was made to admit to bail, which will be authorized next Monday. There is great excitement but nothing serious has happened. A warrant is out for Orson Hyde on the same charge. He, however, eluded the officers and fled south.

Warrants are out for Brigham Young and his son, Joseph A. Young, on charge of murder in the same case with Wells, Stout and others.

George Myers, of Waputo Lake, has a hog which weighs 1,300 pounds, and is a foot larger in the girth than the big hog exhibited at the State Fair.

George Edgar, coming from Canyon City to the Dalles, was stopped by a highwayman and robbed of $92 50. He had $500 in greenbacks that the robber did not find.

Miss Mary Bunn, of Lafayette, died suddenly one night last week. Her hard breathing in the night aroused her parents, and when they reached her bed she was dead.

The Yaquina mail carrier was attacked the second time by a cougar, a few days ago, near Elk City. The animal presented himself in the middle of the road as if he intended to impede his progress, but as it is a violation of law to impede the United States mails, the rider fired a couple of shots at the animal when it left. "No arrests have been made."

From the *Mountaineer*: "D. P. Thompson, the surveyor, was in town during the fore part of the week. In a conversation with him he informed us that in surveying north of Lewiston this last summer, he was much surprised to find it such a beautiful agricultural country. He says it contains more land adapted to agriculture than is embraced in the entire Willamet Valley, including all its tributaries. He saw whole sections that would average one and a half tons of fine bunch grass hay to the acre. The length of the valley is over one hundred and twenty five miles, and contains millions of acres of land of a superior quality. This valley has now about seven hundred inhabitants, with new comers daily arriving."

The Vancouver *Register* says that a revolting case of incest has come to light in Cowlitz county, where a son is living openly and notoriously in adulterous intercourse with his mother.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

The Russian Prince.

NEW YORK, Oct. 28.—The French Consul at Madeira reports the Russian fleet at that port having on board Alexis and party, who expect to sail for New York November 9th.

The Tammany Thieves.

NEW YORK, Oct. 27.—All the journals to-day have felt accounts of Tweed. No paper shows sympathy for him except the *Sun*. The *Sun* bends its account of the revelations of the Citizens' Committee, which has been already telegraphed, "The Day of Judgment!" The *Times* congratulates the public on smoking out the den of thieves. The *Tribune* thinks the robbers are trapped. The *World* believes the last stage of preposterous villainy reached. If Tweed is re-elected to the Senate he should not be permitted a seat. The *Herald* asks Tweed's dismissal as head of the Department of Public Works.

E. A. Woodward, who has been sued for money alleged to do due the city having absconded, Judge Barnard to-day granted application to attach his property.

Reform Democrats, at the instance of Chas. O'Conor, to-day nominated Horatio Seymour as candidate for the Assembly in this city against the Tammany candidate, Tom Fields. Seymour telegraphs his acceptance.

The arrest of Woodward, Garvey and Ingersoll, will be made as soon as papers are received from Albany.

In the Rozenweig case the jury returned a verdict of manslaughter in the second degree. Recorder Hackett sentenced him to the State prison at hard labor for seven years, disregarding recommendation to mercy by the jury.

WASHINGTON CITY.

Proclamation of Thanksgiving.

WASHINGTON, October 28.—Proclamation by the President of the United States: The seasons have again enabled husbandmen to gather in the crop successfully; tilling industry is generally well rewarded. We are at peace with all nations; tranquility, with but few exceptions, prevails at home; while in the past year we have in the main been free from ills which elsewhere have affected mankind. If some of us have had calamities, they should be the occasion for sympathy with sufferers, and resignation on their part to the will of the Most High, and rejoicing to the more favored.

I, therefore, recommend that on Thursday, the 30th day of November, the people meet in their respective places of worship and there make the usual acknowledgments to Almighty God for blessings conferred on them, their exemption from evils, and to invoke his protection and kindness for their less fortunate brothers, who in his wisdom he has deemed best to chastise.

In witness whereof, I have hereunto set my my hand and caused the seal of the United States to be affixed. Done at Washington this 28th day of October, in the year of our Lord 1871, and of the independence of the United States the ninety-sixth. U. S. GRANT.

HAMILTON FISH, Secretary of State.

BY ATLANTIC CABLE.

Queen Victoria Refuses to Consent to a Regency.

LONDON, October 28.—A *World* special says: At a recent Cabinet Council, held to consider questions relative to the royal family, the Queen was asked to give her consent to the marriage of the Duke of Edinburg and a Prussian Princess, and also her consent to the establishment of a regency with the Prince of Wales as regent. She refused her assent to both propositions, and subsequently refused to affix her signature to documents which were presented. The Cabinet afterwards continued the discussion on the regency question, and a definite proposition was introduced to appoint the Chancellor to sign documents instead of the Queen.

Papal Affairs.

ROME, October 28.—An allocution of the Pope is published, in which, while recognizing Bishops appointed by the Italian Government as possessing the requisite qualifications, he solemnly repudiates Italy's guarantees and protests against the invasion of Italy. He also condemns the course of Dollinger and others in warring against the decisions of the Ecumenical Council.

Labor Strikes in Germany.

FRANKFORT, October 28.—The operatives at Chemnitz in Saxony have struck work, demanding a reduction of time to ten hours and increased pay for overwork. In consequence twenty factories have suspended.

BRUSSELS, October 28.—*La Liberte* says that the strike at Ghent is spreading.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, October 29.—Arrived—steamer *Prince Alfred*, from Victoria; bark *Domingo*, from Ochotsk Sea, with 80,000 codfish; bark *Gold Hunter*, from Ochotsk Sea, with 112,000 codfish; ship *Imperial*, 102 days from Baltimore, with merchandise to Gildermeistor & Co.

Weather, clear and warm; all signs of rain have disappeared.

The United States steamer *Wyanda* sailed on a cruise to-day, and the cutter *W. L. Marcy* returned from Port Orford.

Wm. Miller, convicted of robbery in Yolo Co., and sentenced to the State prison for four years for the robbery and two years more for breaking jail, was brought here this evening, en route for San Quentin.

INTERIOR CALIFORNIA DISPATCHES.

LOS ANGELES, October 28.—Several arrests were made to day of persons engaged in the late riot. The testimony before the Coroner's jury established the fact that the rioters are all from the lowest class of population and men of all nationalities.

A terrible sand storm swept over the plains to-day doing great damage to cattle and sheep. The storm was the most severe known here for many years.

A distinct shock of earthquake occurred at Las Flores, Anaheim and visinity at half past 10 o'clock last night.

The Coroner's jury rendered a verdict this evening implicating many persons in the late riot and charging them with the death of the Chinamen. Some of the parties charged have been arrested, and other names are withheld until the parties are arrested.

UTAH.

SALT LAKE, October 29.—Hundreds of people, principally Mormons, visited Camp Douglas to-day to see Mayor Wells and other prisoners. Friends were allowed unrestricted intercourse. A better feeling is manifested than might have been expected. George Q. Cannon arrived from San Francisco last night, and addressed at the Tabernacle to-day 10,000. His mind has undergone a change, and he counseled the Mormons to abstain from any acts of violence and submit to the laws. Elder Pratt was not so conservative; he did not want any whining judge to say to him as he did to Hawkins: "I am sorry for you." He wanted no sympathy from Federal officers. Nothing has been heard from Orson Hyde. Joseph A., Brigham's son, has returned, but is not yet arrested. Late arrests made a marked depression in the Mormon community.

THE TERRITORIES.

The Washington Territory Legislature is about to pass a usury law.

The Sheriff offers $200 for the capture of the two men who robbed and murdered the Chinamen near Seattle some days ago.

Legislation is proposed in Washington Territory giving the right of action to relatives of druckards against the venders of liquor. This law has been in force for some time in Ohio and works satisfactory.

The ladies of Steilacoom are giving a series of entertainments consisting of tableaux, singing, theatrical performances, etc., for the purpose of raising funds for the improvement of the town. That shows what "terminal" enterprise can do.

NEVADA.

Fourteen of the escaped convicts have been captured, killed or have died from wounds sustained at the time of the break. Fifteen are yet unaccounted for.

The Governor of Nevada thinks it would be a good idea to hang the escaped convicts as fast as captured, and then pardon those that refused to leave on the ground of insanity.

An extensive mine of marble has been discovered by Churchill & Co., near Westgate, on the overland stage road. The quality is pronounced superior to any in America, and can be delivered at the railroad for one dollar per hundred pounds.

The County Commissioners of Humboldt county have compromised with the railroad company by accepting the tax on the road bed at $6,000 per mile. The rolling stock and other property is valued at $2,000 per mile, making in all $1,144,000 on which the county will receive taxes.

ANOTHER REMARKABLE CURE
OF A
CHRONIC DISEASE OF THE
THROAT, LUNGS & HEART.

I wish to say to the public that I have been troubled with a disease in my chest, lungs and heart for the last five years, and have been treated by doctors in San Francisco and Oregon, but found no such relief as I have found since I commenced taking Dr. Aborn's medicine, which has only been about four weeks, and I have gained nine pounds—in fact, I feel almost like a new man. I commenced improving from the very first day, and have continued to improve ever since. Furthermore

The Daily Oregonian.

MONDAY MORNING, OCT. 30, 1871.

Profits of Mixed Industry.

The industrial classes of four of our States, Massachusetts, New York, Connecticut and New Jersey, in 1870 had deposits in savings banks amounting to $422,000,000, against $140,000,000 in 1860. This is a remarkable fact, and indicates a wonderful increase of wealth and prosperity. Let it be observed that this prosperity has grown up under the protective system of the last ten years. Does such a fact indicate that protection is impoverishing the country, as free traders assert? Rather does it not furnish an argument against free trade that is wholly unanswerable?

There is a further lesson from this great fact. That lesson is that manufacturing is more profitable than farming; that no purely agricultural people can ever be a wealthy people; that while a manufacturing can import their breadstuffs and grow rich, the agricultural community that buys their manufactures and furnishes the breadstuffs will make little progress in prosperity.

But it is said that the East is protected at the expense of the West. Nonsense; all the States are protected alike. The Western States enjoy the same protection and in time can manufacture just as well and cheaply as the Eastern States. What is to hinder them? If protection has made manufacturing profitable to the Eastern States, it offers the same advantages to the West. It will hardly be contended that a rich and productive soil makes manufacturing less profitable. Why, then, should the West cast an evil eye upon the East, and snarl and grumble because the people are laying up, in the savings banks, their earnings by the millions?

The position this paper has taken against raising wheat for export as an exclusive industry, is supported in a signal manner by these facts and considerations.

A New Gospel of Peace.

A new way of producing harmony and good feeling throughout the country is suggested by the *Herald*. That paper would have a law enacted that no speaker in debate, no public man in writing, no person even in conversation, should speak of our civil war; that all evidences of its existence should be obliterated, and that monuments serving to keep alive its memory should never be erected. This policy, in the opinion of that paper, would be "magnanimous, enlightened and noble." What cure is there for the stupidity that supposes such a thing possible, and gravely recommends it for adoption? The idea of obliterating the history and memory of some of the greatest events that ever occurred in the history of the world! The idea of striking out from the history of the United States the record of those great events which chiefly render that history famous! It is needless to remark that no one but a so-called Democrat, who has never been able to comprehend the nature of the late struggle for national existence, or to appreciate its mighty and beneficent consequences, would deem such a thing possible. If there are those who feel hurt when the war is spoken of, and who are exasperated by the mention of the defeat which "Jeffersonian principles" met with in that struggle, they will probably have to bear it and digest the venom of their spleen as best they can. The interdiction which the Democratic organ would place upon speech and writing, in order to avoid any mention of the war and its results, would seem to be the Democratic idea of "liberty."

A Petition from Alaska.

A petition signed by a large number of citizens of Alaska, and addressed to the Government at Washington, is published, in which the petitioners represent that they are subjected to injustice by the lease of the seal islands. They say that by this transaction they are subjected to a species of slavery, and are at the mercy of the lessees. "Morally, religiously, socially and commercially," say the petitioners, "our destiny is in the hands of the lessees of the Government." We quote further:

Even merchants and traders are excluded from our shores by these lessees, and competition is thus cut off, and we are dependent only on the — all of our masters. The employees of the company (lessees of our island,) often beat and violently assault us, threatening to drive every Aleut from the island, and that they have that power, through this lease obtained by them from Government, at a cost of many thousand dollars. These employees are careless and indifferent about the fur seal,—*our only* resource and support, for ourselves and families. The lessees are permitted to kill 25,000 per annum. When we bring them skins, they select only the first class skin, and order us to take the rest out of their sight. By this means, out of one hundred skins, about 75 are purchased by them and the rest, 25 skins, have to be thrown into the sea. The rejected skins which are cast into the sea and destroyed, would find a ready sale with other outside traders who are eager to purchase them; and thus are the fur seals gradually disappearing; our labor is partially lost, and 25 per cent. of the wealth of our industry is lost to us, because no one is allowed to visit our shores to trade with us, but the lessees of our island, whom we are compelled to regard in the light of masters and even tyrants.

In conclusion, we beg respectfully of the United States Government, and of our fellow citizens all over the Republic, to regard us not as wild Indians, who are not such, but as fellow citizens, struggling to advance in civilization, and to become worthy to be esteemed as fellow citizens of the Republic.

The *Herald* sees no reason to doubt that the late terrible fires are "evidences of God's displeasure at the cruel injustice we are practicing toward the people of the South." We don't question our neighbor's belief, for the morbid imagination can conjure up anything; but no one except him of the *Herald* sees any reason to believe anything of the kind. The story of "cruel injustice" to the South is silliest of bosh, and the idea exists only in the diseased imagination of the extreme partisan. It is not surprising, however, to find the Democratic organ setting forth this theory in regard to the recent conflagrations. Doubtless it could even quote scripture for it. For the great dramatist saks:

> What damned error but some sober brow
> Will bless and approve it with a text?

And to the same purpose the pellad[ist]:

> E'en ministers ha' been kan'd
> In holy rapture,
> A rousing whid at times to vend,
> And nail't wi' Scripture.

The late election in Texas went against the Republicans, who have themselves to blame for the misdeeds that did much to produce that result. And now they propose to withhold certificates of election from the candidates who were really chosen, and give them to the defeated Republicans. This is a wrong which will not be tolerated, and they may depend upon it that Congress will see that justice is done.

The Democratic party of the United States is about to be subjected to the little inconvenience of losing its leaders. Several of them are under arrest, and it seems probable will go to the Penitentiary. The dispatches from New York tell all about it.

THE TERRITORIES.

The boiler to run the steam whistle at Cape Flattery was made air tight and floated ashore from the steamer.

The Olympians have a skating rink, and now nothing remains to perfect their earthly happiness except—a terminus.

It is reported that the Skagit Pass is to be surveyed with a view to determine the practicability of a more northern railroad route.

Three or four dozen witnesses have been examined and several hundred pages of legal cap have been covered with testimony in a suit for the town site of Steilacoom.

From the Vancouver *Register*: Hannah E. Short and her brother Curtis, after sueing and being sued, has left this part of the "Sabbloonery Speer" and gone to parts unknown. Rumor has it, that they are going into the town site business in Chicago, where they will claim the burned district. They are supposed to be acting under the advice of certain extinguished lawyers.

A letter from Walla Walla informs us that the petition for the removal of Judge Kennedy was really a huge affair, and that the doubt we expressed about it is without foundation. The same letter says: "Since we heard that Hon. Leander Holmes is to be appointed in his place, we are all rushing around to get our names off the petition for the removal of Judge Kennedy." Well, well, we never could understand anything about the ways of politics in Washington Territory.

The Olympia *Echo* says: The condition of the financial affairs of this Territory is a scandal and reproach. The Territory is about $25,000 in debt, and many of the counties are deeply in debt to the Territory. This has been going on for the last ten years, and it seems to us that a remedy ought to be applied soon. If the power is not vested in the financial officers of the Territory to enforce collections the Legislature ought to confer them, or one of them, to proceed in such cases. We believe every item could be brought even within the next two years.

The Olympia *Tribune* is mortified that so many of the very susceptible people converted to the new faith by Miss Anthony and Mrs Duniway are already wavering, and betray signs of backsliding. Just so did they of Walla Walla. No sooner did the shepherdesses turn their backs upon the flocks in that section than the sheep broke and ran; and now, we are told, there are none sheepish enough to acknowledge they were ever in the woman suffrage fold. For the credit of Olympia it is hoped the flock here will remain steadfast, and thus spare the feelings of their fair captors!

OREGON.

Brick buildings to the value of $20,000 are in course of erection at Albany.

Chemeketa Lodge I. O. O. F., Salem, has donated $200 to the Chicago relief fund.

The *Farmer* has commenced the publication of the premium list of the late State fair.

A party of miners bound for the Bohemia district passed through Eugene the other day.

The Eugene people are rejoicing over fresh Shoalwater oysters received daily by railroad.

Oats are selling up the valley, at the farmers' barns for seventy five to eighty cents per bushel.

The Friday evening concert at Salem, for the benefit of the Wisconsin and Michigan people, realized $218.

There is said to be not less than 90,000 bushels of wheat in store at Independence, and 40,000 bushels at Buena Vista.

The Eugene *Guard*, anti-departure Democratic, devotes a line and a half to the announcement of the Republican victory in California at the late judicial election.

A correspondent of the Eugene *Guard*, appeals to the local "bowels of compassion" and "outgushing of humanity" in behalf of the Michigan and Wisconsin sufferers. The occasion is a forthcoming concert.

On the 23 of November—next Thursday, there is to be a sale of lots in the new railroad town of Cheswell, twelve miles south of Eugene city. It is expected the railroad will be completed to that point by the 1st of December.

A valley paper notes the fact that everywhere in the valley "houses and barns are being built, fences built and remodeled, new land broken up and every proof apparent of thrift and prosperity," and attributes it all to the "extension of the means of transportation. Correct.

The Difference.

The following printed article is from the New York *Times*:

> The Democratic papers are forever trying to excuse the Tammany frauds by crying out, "Look at the peculations committed by Federal officials—what have you got to say about them?"
>
> In the first place, we have to say that two blacks do not make a white. You cannot justify the embezzlement carried on under the New York Ring by asserting that some Federal official has proved faithless to his trust.
>
> In the next place, there is this all important difference to consider between the two classes of cases: when Federal officers are proved guilty of dishonesty they are punished, if caught—if not caught, they are at least obliged to hide their heads, in disgrace and ruin, far from home and kindred.
>
> Paymaster Hodge, for misappropriating an amount of money which would not pay Andrew Garvey for two hours' plastering, has been sentenced to ten years imprisonment with hard labor.
>
> W. M. Tweed, proved to have been concerned in thefts and forgeries involving millions, still occupies one of the foremost positions in New York; is candidate for the Senate, and will certainly be re-elected.
>
> Oakey Hall, who signed all the fraudulent warrants, is still able to boast that he is Mayor of the city, and is at this moment busily engaged in taking measures to prevent a rightful expression of public opinion at the polls next month. He is manipulating the districts, and appointing "inspectors" of election in the Tammany interest, so as to secure another tenure of power for himself and brother rascals.
>
> Is there no difference between dishonesty in Republican and Democratic ranks?

RAILROAD LANDS.

OFFICE OF LAND DEPARTMENT,

OREGON & CALIFORNIA R. R. CO.

AND

European and Oregon Land Co.,

PORTLAND, OREGON, August 1, 1871.

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms:

The applicant filing in this office a claim in the form prescribed, to-wit:

Pre-emption, date, No. ——.

To the Land Agent of the European and Oregon Land Company:

Sir:—You are hereby notified that I have settled upon and improved (description of land) in the county of State of Oregon, containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

(Name of applicant.)

(Postoffice address.)

When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form:

"No. ——. PRE-EMPTION CERTIFICATE, No. ——.

This is to certify that —— of —— county, State of Oregon, has this day filed in this office a pre-emption claim to (description of premises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, (which is to be made with that reference to improvements) when the same shall be placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 26, A. D. 1871.

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party or the holder hereof within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person.

(Signed) ——

Land Agent of the E. & O. Land Co."

The lands will be apprised by a competent, disinterested party, under oath, at their actual present value—no fancy or prospective price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not exceeding one hundred and sixty acres to one person, payable in five equal annual instalments, with interest from date of contract, at ten per cent. per annum, principal and interest payable in United States Legal Tender Notes. Warranty deeds given after United States Patents issue, upon payment in full.

Blank forms of application furnished upon request.

THE BEST REMEDY FOR

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend and guarantee an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY—They are already mixed and ready for use; and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 10, '70: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any PAID AND OIL CAN EQUAL IT."

WM. F. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 99 cents per gallon in favor of the former.

The entire receipts, both Fire and Marine Premiums, as also the Capital Stock, subscribed within this State, is retained and invested therein by the Board of Directors, thereby relieving, in a measure, the constant drain upon the resources of the State, by the annual withdrawal of large amounts of money paid for Insurance.

The Daily Oregonian.

MONDAY MORNING, OCT. 30, 1871.

CITY.

FROM OMENICA.—Frank McCann, well known in this city a couple of years since as a teacher of dancing schools, together with several others, arrived last evening from the Omenica mines. Mr. McCann has been in those mines most of the summer. His report of them is not particularly flattering, though he has the opinion that there is in that region an extensive mining district, and that some money may be made there next year. The original discovery, Jamison Creek, has not proved to be remunerative, and it is now comparatively deserted for better diggings. About the last of July Manson Creek was discovered, and some hopeful prospects were obtained. Gold was found in even the surface gravel, and in one or two claims upon reaching the bed-rock, fair pay was obtained, but upon the whole the creeks are none of them considered surely rich. Lost Skeleton and Boulder Creeks are also discoveries made about the last of July, but thus far the bed-rock has not been reached on either of them, and it is not known whether they are worth anything. Large pay in a few instances has been found on the "rim rock" along all these streams, but the majority of the claims have never yielded enough to pay wages. In all the lately discovered districts the whole country seems to be composed of what miners call wash gravel, and gold in small quantities is found almost everywhere, but rarely in paying quantities. The "Irving claim," on Lost Creek, has paid as high as sixty four ounces a day, while adjoining claims yielded next to nothing. Mr. McCann thinks as yet the region has had but little thorough prospecting, and that as far as known the mines will not be remunerative till the hydraulic system of mining shall be adopted. One hundred returning miners came down from the mouth of Skeena river by the steamer *Otter* at the same trip with him. Many of them were "flat broke," and were able only through the humane generosity of the Hudson Bay Company to obtain either food or passage. All who desired to come down, however, were brought along and fed during the passage, whether or not they had any money.

ODD FELLOWS' BENEFITS.—Just after the last session of the Grand Lodge I. O. O. F. of Oregon, we published a report setting forth the action of Olive Lodge of Salem in the matter of securing to the widow of G. C. Davis certain sick and funeral benefits, claimed by the widow from Apollo Lodge No. 123 of San Francisco, a portion of which the Lodge had refused to pay. The matter was brought up before the Oregon Grand Lodge, and a long and able report (the one above alluded to) was adopted, affirming the liability of Apollo Lodge to pay the claim under the laws of the Order, and requesting the Grand Master of California to enforce the payment. We have just learned that the Grand Master, W. H. Hill, of California, has decided that the Lodge must pay the claim except a small rebate. The benefits so claimed by the widow amounted to over $700, and as decided by Grand Master Hill the amount is a little less than $700.

LECTURE AGAINST WOMAN SUFFRAGE.—Mrs. J. B. Frost had an audience of about two hundred at the court house Saturday night, to hear her lecture against woman suffrage. We did not hear her, but we learn from hearsay that she talked over an hour and a half, during which time she gave her hearers a liberal account of herself and made a number of laugher-provoking hits at Miss Susan B. Anthony. An intelligent auditor expresses the opinion that there are very many good arguments against woman suffrage which she did not present at all, and that some of those she did use might have been better put. From all we hear, we are inclined to think her decidedly a talkative woman but not remarkably argumentative; rather smart but scattering, and upon the whole not calculated to do a great deal of harm either to her own or her opponents' cause.

TO THE WISCONSIN AND MICHIGAN SUFFERERS.—On Saturday, Mayor Wasserman sent the following telegram to the Governor of Michigan, and a similar one to the Mayor of Milwaukee, Wisconsin:

PORTLAND, Oregon, Oct. 28, 1871.

Governor Baldwin, of Michigan: Our citizens have contributed one thousand dollars to be applied towards the relief of the sufferers by this late dreadful fires in your State.

PHILLIP WASSERMAN,
Mayor.

FIREMEN'S ELECTION.—We observe that a vigorous canvass is going on among the firemen of this city by the supporters of the several candidates for Chief and Assistant Engineers. For Chief Engineer there are only two candidates—V. L. Brue, of Columbian Engine Co. No. 3, and F. A. Williams, of Multnomah Engine Co. No. 2. The contest, therefore is a square one, upon the merits, experience and capacity of the two men. The election will take place on the first Monday in December.

WET BOT PRACTICE AS WELL AS PREACH'N.—A Mr. Bourne, 66 years of age, set out from Olympia a few days ago, intending to walk to San Francisco, stopping at towns by the way to deliver lectures on health, phrenology and common sense. It is better to practice common sense than to preach it; therefore we advise the gentleman to give up the idea of walking and take the cars (we have to Eugene, and the stage from there on).

THEATRICAL.—We understand that Mr. F. M. Bates has written to the proprietors of Oro Fino Theater within the last few days to the effect that he expected to be able to arrive here about the first of November with a dramatic troupe. Such an arrival would be hailed with unfeigned pleasure by very many in this city. Without amusements, our Oregon winter evenings are insufferably dull.

IMMIGRANTS.—There were among the passengers who arrived by the *John L. Stephens* about thirty families who have come here to settle. They are mostly people who have come out, with some money, and want to buy farms or go into business. They represent that other immigrants of the same independent class, may be looked for during the winter and next spring.

BOUND TO GO.—We hear of a chap over in East Portland who, being arrested and fined for fast driving over one of the bridges, contrary to ordinance, revenged himself by driving "fast and furious" over *all* the bridges. The sequel was another arrest on as many charges as there are bridges. The authorities are believed to be slightly vexed on the transaction.

SERVED HIM RIGHT.—We hear of a case in which a fellow followed a young lady on the street, attempting to force his acquaintance upon her, a night or two since. Finally, the persecuted lady encountered a friend who, being informed of the fact, proceeded at once to scatter the scamp, by applying the toe of his boot to the person of the offender. Correct.

A FRENCH THIEF.—It would be difficult to name anything now which the impecunious thieves wouldn't carry off. On Friday night Mr. W. W. Spaulding, who is building a house in the northern part of the city, lost ten or twelve dollars worth of lumber which had been cut up for fencing. What the thief could want of it is the wonder.

FUNERAL.—The burial of William O'Hara, who died suddenly on Friday, took place at 2 P. M. yesterday, and was attended by members of the several fire companies and a considerable concourse of friends of the family.

BEGINNING TO PAY.—We see by the *State Journal* that the subscribers to the O. & C. Railroad subsidy at Eugene are beginning to pay up. Mr. J. B. Underwood is agent for the company to receive subscriptions.

STEAMER FROM SAN FRANCISCO.—The steamship *Oriflamme* sailed from San Francisco at 11 o'clock A. M. yesterday, for this port. Her passenger list, however, has not been telegraphed.

PROCEEDS OF THE LATE CONCERT.—It is stated that the net proceeds of the late concert are about $940. The panic and smash of doors, and windows cost the fund about $100.

AN OLD ONE.—On Saturday Mr. Put Smith presented to Mr. W. S. Ladd a Turkish coin of date 1746. Mr. Ladd has already a fine collection of old and rare coins.

CASH HOUSES AT AUCTION.—On Saturday Mr. A. B. Richardson sold at auction a number of cart horses for prices ranging from $25 to $50.

SHIPPING.—The bark *Rival* went to sea on Friday. The barkentine *Jake A. Falkinburg* is expected to sail for Honolulu to-morrow.

LOCAL BREVITIES.

The U. S. District Court will meet to day.

The Police Judge sat on Saturday without a single drunk a front.

To-morrow being the Eve of All Saints Day, will be a day of strict fasting.

The hydrant, corner Washington and First street, has been lifted out for repairs.

It is said that card parties are going to be in vogue here this winter.

Small contributions to the Chicago relief fund are still straggling in. Better late than never.

The show folks have mostly got back from the Hillsboro fair. They didn't bilk much out there.

It is said that O. S. Fowler, the Phrenologist, is coming to Oregon to feel the bumps of the Webfoot.

Wild geese are on the wing for southern swamps and milder climes, a never-failing indication of winter—at this season of the year.

An application has been made to this city for the machinery of a hook and ladder company recently organized at Roseburg.

Rev. Mr. Eliot preached last evening upon "Mistaken Views of Marriage." It was noticed that the audience was almost wholly composed of married folks.

The up-country chaps who were lately nipped by the strap game, are rejoicing over the news that three of the rustlers are in the Multnomah county jail.

PERSONAL.

Capt. Ed. Starr, of the steamer *North Pacific*, plying between Olympia and Victoria, is in this city on a visit.

Mr. E. D. Towl, of Salem, one of the Representatives of the Grand Lodge of Oregon, I. O. O. F., to the Grand Lodge of the United States, returned by the last steamer. Since the adjournment of the Grand Lodge he has been visiting his friends in the West.

Mr. W. S. Dean, one of the firm of Dean Bros., lately real estate agents of this city, has established the "North Pacific Land Agency" at San Francisco, through which it is proposed to sell Oregon real estate or to furnish, gratis, information about our State to any who may seek it.

PRISONER ENOUGH HOME.—We learn that Sheriff Wm. Turnbull came up on the *Rescue* yesterday, having in charge a prisoner named Jamison, who was convicted some time last year at Vancouver of rape and sent to the Territorial penitentiary. He is now brought over to Vancouver to serve out the remainder of his term in the county jail. We understand the reason of this transfer to be, that the penitentiary accommodations at Steilacoom to be insufficient and insecure, and each county is now required to keep its own State prisoners.

AN EMBEZZLEMENT CASE.—We learn that a man named Ball has been arrested in Douglas county charged with the embezzlement of a large amount of partnership funds which he had collected and with which he left the city some time ago. He had been up to that time, in the butchering business in partnership with Mr. Epperny. He took away with him when he left, a saddle, also, which did not belong to him. It is expected Ball will arrive here to-day, in the charge of Sheriff Van Buren.

GRAND MASTER'S CIRCULAR.—E. L. Bristow, Grand Master of the Grand Lodge of Oregon I. O. O. F., has published a circular recommending the Lodges of this jurisdiction to donate as they may feel able to do for the relief of the brethren of this Order at Chicago, and to forward such donations to J. Kraemer, Chairman of the General Relief Committee, Portland.

MEETING OF LADIES.—We are informed that there will be a meeting of ladies at the Baptist Church to-morrow, afternoon to devise ways and means to purchase and send clothing to the women and children of the burnt districts of Michigan and Wisconsin. The hour of the meeting is not named.

A DROWNED INDIAN.—Last Wednesday the body of an Indian was found in the Columbia river near the mouth of the Cowlitz. The Coroner's jury came to the conclusion that he had been accidentally drowned.

CIRCUIT COURT.—This court will meet this morning when Judge Deady will announce the opinion of the court on the motion for new trial in Elfelt et al. vs Snow.

STEAMER TO SAIL.—The steamship *John L. Stephens* is advertised to sail for San Francisco at 5 o'clock this afternoon.

BUSINESS NOTICES.

SAFES.—In another column will be found a testimonial to the fire-proof qualities of the Diebold & Kienzles safes, as shown by the late Chicago fire.

SEEDS AND PLANTS.—For an enumeration of new seeds and plants, consult the advertisement of E. B. Moore, San Francisco. Almost anything possible to think of can be found at his seed and plant depot.

A WORD AND THE WISE IS SUFFICIENT.—Be it known to the People of Portland and the surrounding country, that at the extensive clothing establishment of Kuhn & Fishel, 91 Front street, they are selling new and stylish suits for Fall and Winter wear at prices that are astonishingly low. Call at this House and examine the large stock of Clothing and Furnishing Goods. You will come away satisfied.

A Cough, Cold, or Sore Throat, requires immediate attention, as neglect often times results in some incurable Lung Disease. "*Brown's Bronchial Troches*" are a simple remedy, and will almost invariably give immediate relief.

Owing to the good reputation and popularity of the Troches, many *worthless and cheap imitations are offered, which are good for nothing.* Be sure to OBTAIN the *true "Brown's Bronchial Troches."* Sold everywhere.

Sinking Fast.

Pale, miserable, discouraged, without relish for food, without energy enough for exertion, yet with no acute pain, or other specific indication of disease, how often do we see feeble invalids fading as it were out of life without any apparent cause. We say of them that they are "sinking fast," or "dishing gradually," as the case may be. But there is no good reason why they should sink at all. Persons in this dead-alive state simply want invigorating and vitalizing. Nature, in a state of torpor, demands help. Bring out the reserve of vitality in the system, brace the nerves, tone the stomach, break up the morbid trance of body and mind with a course of Hostetter's Stomach Bitters. It can be done. It has been done in thousands of instances. The effect upon the concreted frame is electric. Never give up, however languid and broken down. Remember that for the exhausted, the debilitated, the desponding, this powerful vegetable restorative is a genuine elixir. It is not a mere stimulant that provokes a transient flash of vigor in the system, and then leaves it in a more depressed condition than before. It removes the causes of debility by altering the secretions, and regulating the action of the internal organs, as well as re-enforcing them. It is a particularly valuable medicine at this season, because it is an antidote to the malaria which produces intermittent fever, bilious colic and other disorders of the bowels prevalent in the fall.

NEW YORK

LIFE INSURANCE COMPANY!

PURELY MUTUAL!

ASSETS.....$17 000,000!

ISSUED 9,925 POLICIES IN 1870.

Insuring Over $27,000,000!

Wm. H. BEERS, Vice President and Actuary. MORRIS FRANKLIN, President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are—

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In the Company a party always has a dividend which can be used in the payment of the *second and all subsequent annual premiums*.

7th. ITS DIVIDEND SYSTEM is also "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although equitably claims, are not LEGALLY so. The records of this Company bear many acknowledgments from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

FOUNDED IN THE YEAR 1850.

ACCUMULATED CAPITAL OVER.....$16,000,000.
ITS ANNUAL INCOME OVER.....6,000,000.
WHOLE NUMBER OF POLICIES ISSUED TO DATE, NEARLY.....100,000.
NUMBER OF POLICIES ISSUED IN 1870.....12,917.

THE ÆTNA RANKS AS ONE OF THE FIRST COMPANIES IN THE LAND!

IN INCOME, IN ASSETS, IN NUMBER OF POLICIES, IN AMOUNT INSURED, IN SOUNDNESS, CHEAPNESS, PROMPTNESS IN SOLIDITY AND STRENGTH, AND SUCCESS.

THE AMOUNT OF DIVIDEND A COMPANY CAN PAY ITS INSURED, DEPENDS UPON THE RATES charged for insurance, the AMOUNT of business done, the EXPENSE of doing it, the INTEREST on its investments, the CARE exercised in the selection of its risks, and the TIME when such dividends are paid. In regard to these, as also all other points, the ÆTNA is unsurpassed in advantages by any other Insurance Company in the United States.

The *New York Insurance Monitor* says of the Ætna:—"No Life Insurance Company ever achieved so complete a success as this popular institution. Its popularity is altogether unprecedented in the annals of commercial enterprise in this country."

The *New York Independent* says of the Ætna Life:—"It is to-day one of the *soundest* and *most reliable* Insurance Companies in the United States—every dollar of its assets well secured, more than providing for all liabilities; and it eminently deserves a still greater patronage and the unhesitating confidence of the public."

There was some complaint at the lack of rain for plowing-up to this week, but the rains of this week and the cloudy weather now are all that can be asked to assure a larger number of acres being prepared for seeding than has ever before been done. This year's harvest has demonstrated the necessity of Fall seeding, and we are confident, from all we can learn from farmers, interior merchants, and others from different parts of the State, who should be well informed, that the number of acres that will be seeded this Fall will be more than double any previous year, as all propose seeding as many acres as they can, and only intend to quit when they are compelled to.

We are in receipt of the last number of the *Harvest Journal*, of England, a paper of undoubted authority on all questions of crop prospects, etc, in the United Kingdom, from which we extract the following:

The sight of our last page will be very welcome to many eyes, for, in sound figures, it conveys an assurance as to the results of our harvest, which is in the main satisfactory. The conclusions of our correspondents, moreover, agree with estimates made a month ago; they mostly indicate exaggerated views of a deficient wheat crop, and satisfy us, as they are, to unreasonable evidence, they should give a healthy tone to the grain trade, superseding the feverish excitement that has lately been manifested. England, like a modern Mother Hubbard, has been represented going to her cupboard.

"And when she got there
The cupboard was bare"

or very nearly so; and something like a feeling of national alarm was created. Some of the most valued of opinion have been published, and certainly they have, as a rule, improved deeply in tone when viewed with the idea of great deficiency. 26 per cent—a terrible average yield to 50 per cent. about the average yield have been announced; the import we must make to feed required has been given down at 25,000,000 qrs. wheat or its equivalent in corn, and 13,000,000 qrs. wheat to give us bread to eat, have been asked of foreign growers. Let the English farmer think of this—and many what would be the state of trade should the foregone events all come to pass, and forward as the enormous bulk submitted; and then, let him turn to the moderate estimates prepared by our correspondents, and whilst we desire the wheat imported into the United Kingdom may reach their maximum quantity, 10,000,000 qrs., and even perhaps exceed that by another 1,000,000 qrs., to enable us to re-ship to France, we, for our part, and on the part of British farmers, shall then cry "hold, enough," treating anticipated that our natives will bread supplies will be appeased. We may add here, that in the opinion of Mr. Bowden, whose letter is annexed, the total yield of this country will not be under 13,000,000 qrs., and that we shall require under 9,000,000 qrs. from abroad—this sum is worked out by supposing the acreage is large than returned to the Government, and that the years to be provided a year of eleven months, from the latness of the present season, and an average yield of 25 bushels per acre is supposed. Another view, opposed to this, estimates the total requirements at 12,000,000 qrs., without regarding to the important item of old stocks, probably 1,000,000 qrs., which in wheat and flour seasons are well and absorbed entirely; and it is further supposed the increased pay of the working classes will stimulate an extra consumption of 1,750,000 qrs.; when, a high wages usually go to the purchase of meat, and meat used is more in favor of greatest poverty.

Returning to our own conclusion: After a visit through Kent, Sussex, Hampshire, Essex, Suffolk, Norfolk, Cambridge, and Lincolnshire, attending the thronged Corn Exchanges, not omitting meeting many friends at "the market dinner table," and fortified, moreover, by the schedules we have tabulated, believing them thoroughly English and straightforward, we now express the opinion of the *Harvest Journal*, that embodying the views of our correspondents and editor, and recorded by ourselves, we yield for 1871 on 3,525,000 acres under cultivation, should equal 12,000 qrs.—say 15 per cent. deficiency on an average yield.

During the last year the United States produced 20,439,250 lbs. of Smoking Tobacco, 64,656,876 lbs of Chewing Tobacco and Snuff, and 1,319,076 thousand Cigars. During the same period, there were imported 6,334,950 lbs of Leaf, and 759,907 lbs of Cigar Tobacco.

Merchandise Report.

WHEAT—The continued uncertainty regarding the market for the future causes shippers to act with great caution, and only make purchases on the spot for immediate delivery, as for ward deliveries are avoided with so many contingencies regarding prices that offers at any very low rates will be made. We quote shippers' offers at 82 87½ per cental, asked, for immediate delivery. The public dispatches from San Francisco inform us that the shipments of wheat to date from there amounts to 670,000 tons, and the steamer now in the State is estimated to carry 2,000 tons.

FLOUR—We have no change to note. The daily receipts are increasing, which must cause accumulations of large stocks, as the demand is light. We quote extra at $5 50 per bbl, although some large transactions at $7 60 ⅌ bbl for extra, and $6 50@7 00 ⅌ bbl for superfine.

OATS—We have no change to note, and quote our last, and continue our quotations at $2 45@2 55 ⅌ cental; nominal.

POTATOES—The market was weaker to-day, owing to large receipts and larger receipts from California. If Barnard will make a re-dispose of their produce, would please the same in commission houses, take as soon as sold, and leave the same sold when demand is scarce, they would not break the market, but get better prices, and our merchants and traders would be able to do a fair jobbing lots for Oregon. Sweet are firm at $2 50@3 00 ⅌ cwt.

POULTRY—Receipts to-day liberal; market dull at the following quotations: Chickens, large size, $3@3 25 ⅌ doz; Ducks, $3@3 00 per doz, Geese, $7 50@9 00 ⅌ doz.

BEANS—Quotable at 4½@5 ⅌ lb.

COAL—Market in San Francisco has advanced from $12 to $13 ⅌ ton, with market firm.

HAY—Owing to the low prices ruling for Liverpool, parties in San Francisco have effected a combination, and prices, as we are informed by private dispatches, have been advanced. Our market has, in sympathy, also advanced.

HAY—Eastern advices state that the meeting of manufacturers held on the 12th of October made no change in the prices. Stocks throughout the country, and in the city east of the Alleghanies, are light and the demand is active.

HOPS—Late Eastern sales advise that a considerable quantity of hemlock sole has been taken for consumption of the year, and the shipments being good, the market, on the spot, has been firm, but not materially altered, and prices are very firm, though the market closes quiet. There is a good demand for prime stock of oak sole, and with a moderate supply, prices are maintained. Taking the foregoing in connection with the destruction of immense stores of Boots, Shoes and Saddlery in Chicago, demanding large supplies to meet the trade, must necessarily enhance the value of all leather goods East, and effect prices this side.

PAPER—The commercial correspondent of the San Francisco *Alta* says: Printing and wrapping are in small stock, and the market for all kinds is very firm, in view of the destruction of large quantities at Chicago, and the probable extra demand to replace it from a small stock. We see that heavy rains have fallen at the East, where the mills were in much need of it. Prices, to replace, are quotable, but to new ones 1c per pound is demanded.

Markets.

[BY TELEGRAPH.]

SAN FRANCISCO, Oct. 28.—Wheat—Best grades firm at $2 60@2 70.

Barley—Quotable at $1 05 Bay; $2 Brewing; $2 05.

Oats—Heavy sales as low as $1 60@1 65; difficult to sell any over $1 85.

Potatoes—Choice Rodeos, 60@65c; Pigeon Point, 80@$1; Sweet, $1 12½.

Hops—Range for California, 55@65c; demand fair and firm.

The King of Mineral Springs is the German Seltzer; and TARRANT'S EFFERVESCENT SELTZER APERIENT Is its duplicate. Letters attesting its Wonderful Tonic Aperient and anti-Bilious qualities swarm in from every source. The question has been settled whether artificial mediated waters may not be equal to those which burst sparkling from the earth itself. They can; and the Seltzer Aperient, when undoubtedly pure and genuine, possess the fact. Be cautious. Accept none other. Sold by all druggists.
